Smt. Kashibai Navale College of Engineering, Pune-41

Department of Electronics & Telecommunication Engineering

VISION

We aim quality education in the field of Electronics & Telecommunication Engineering to build Techno-social engineers to solve real life challenges.

MISSION

1. To render technical academic aura through unique teaching learning process that equip students to face global challenges of industry.
2. To promote students to develop skills and resolve the social and environmental problems of current times with collaborative and interdisciplinary activities.
3. To endorse research and innovation in Engineering & Technology.
4. To empower Electronics & Telecommunication Engineers with state-of-art technology to meet growing challenges of the industry.

QUALITY OBJECTIVES

- All-round development of students relevant to the needs of industries and making them competent to face the challenges due to globalization.
- Development of faculty and staff by deputation for higher studies and skill up-gradation.
- To strengthen industry liaison by way of faculty training, students projects, testing, Memorandum of Understandings (MoUs) etc.
- To promote R & D activities in the departments.
- To establish research center for doctoral programs and to undertake research in focused areas from Electronics and Telecommunication Engineering, Information Technology and Mechanical Engineering.
- To develop strong industry –institute interaction to offer expertise for projects, training and consultancy.
- To seek academic freedom to lead in the University.
- To serve an engineering knowledge center for society in general.

Department of Electronics & Telecommunication Engineering

Vision of the Institution:

"उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटीबध्दा: वयम्" |

We are committed to produce not only good engineers but good human beings, also.

Mission of the Institution:

M1 : Our mission is to do what it takes to foster, sustain and upgrade the quality of Education by way of harnessing Talent, Potential and optimizing meaningful Learning Facilities.

M2 : Our endeavor is to provide the best learning, conductive environment & equip the students with effective Learning Strategies.

Objectives of Institution:

- To build a personality with technical and non-technical skills, which are globally at par.
- To implement effective teaching-learning process (T-L-P) so as to achieve excellent academic performance in the university examination.
- To provide the opportunity to the students to participate in various co-curricular and extra-curricular activities for their overall development.
- To upgrade the staff qualification.
- To make the students employable by introducing various skill development programs like Student Training Programs (STPs) and Value Addition Programs (VAPs).
- To create top notch entrepreneurs, through Entrepreneurship Development Cell (EDC).
- To make the students competitive with practical oriented problem solving techniques through Project Based Learning (PBL) & Lab Innovations (LI).
- To introduce various Faculty Development Programs (FDPs) like Train the Trainer (TTT), Teacher Advancement Program (TAP), etc.
- To inculcate the research culture among students and faculties.

Vision of the Department of E&TC Engineering:

We aim quality education in the field of Electronics & Telecommunication Engineering to build Techno-social engineers to solve real life challenges.

Mission of the Department of E&TC Engineering:

1. To render technical academic aura through unique teaching learning process that equip students to face global challenges of industry.
2. To promote students to develop skills and resolve the social and environmental problems of current times with collaborative and interdisciplinary activities.
3. To endorse research and innovation in Engineering & Technology.
4. To empower Electronics & Telecommunication Engineers with state-of-art technology to meet growing challenges of the industry.

Program Outcomes (POs)	Program Educational Objectives (PEOs)	Program Specific Outcomes (PSOs)
Program Outcomes are narrow statements that describe what the students are expected to know and would be able to do upon the graduation. These relate to the skills, knowledge, and behavior that students acquire through the program.	Describe the expected achievements of graduates in their career, and what the graduates are expected to perform and achieve during the first few years after graduation.	These are what the students should be able to do at the time of graduation.
Engineering Graduates will be able to - 1. **Engineering knowledge**: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems. 2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. 3. **Design/development of solutions**: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. 4. **Conduct investigations of complex problems**: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. 5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.	Graduates will be able to I. Apply concepts of mathematics, science and engineering for design - development of creative interdisciplinary frameworks for advancement of the society II. Demonstrate quantifiable advancement in the careers they decide to seek after. III. Adopt life-long learning with high morals to outshine in the volatile economic and technological environment	I. To design and Implement Modern Electronic Systems utilizing knowledge of Embedded Systems, VLSI and Signal Processing. II. Identify and apply appropriate Modern tools for the design and implementation of communication using IoT, AI and Robotics.

Program Outcomes (POs)	Program Educational Objectives (PEOs)	Program Specific Outcomes (PSOs)
6. **The engineer and society**: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. 7. **Environment and sustainability**: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. 8. **Ethics**: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. 9. **Individual and team work**: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. 10. **Communication**: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. 11. **Project management and finance**: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. 12. **Life-long learning**: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Course Outline

Course Title: ADVANCED PROCESSORS		**Course Code:** 304189	
Class: T.E. E&TC	**Division: - I**	**Sem : VI**	**Term: -II**
Lecture Schedule: 4Hrs/ Week **Practical Schedule:** 2 Hrs/Week		**Examination Scheme: Insem:** 30 Marks **Theory:** 70 Marks	
Course Teacher: Prof. N.M.Wagdarikar		**Date:** 16-12-2019	**Sign:**
Program Outcomes Mapping: 1,2,3,5,8,9,10,11			**PEOs : I, II**

Prerequisites: Microcontrollers.

Course Objectives: The objective of this course is

The students are expected to demonstrate the ability to:

1. To understand need and application of ARM Microprocessors in Embedded system.
2. To study the architecture of ARM series microprocessors.
3. To understand architecture and features of typical ARM7 & DSP processors.
4. To learn interfacing of real world input and output devices.
5. To learn Embedded communication systems.

Course Outcomes: At the end of the course students should be able to

a) Describe the ARM microprocessor architecture and its features.
b) Interface the advanced peripherals to ARM based microcontroller.
c) Design Embedded system with available resources.
d) Use of DSP processors and resources for signal processing applications.

Course outcome are redefined by the faculty members as given below :	
CO1	Describe the features, advantages of ARM 7, ARM 9 & ARM11.
CO2	Describe the ARM 7 microprocessor architectures and its features.
CO3	Design and Interface the advanced peripherals to ARM based microcontroller.
CO4	Design embedded system with available resources.
CO5	Describe the C67X processors architecture and its features.
CO6	Apply DSP Processors and resources for signal processing applications.

Means of achieving Course Outcomes (COs) :-

1. Unit test conduction after every two units.

2. Chapter wise assignments are given to students after completion of each chapter.

3. Previous University question papers and modeled answer sheet will be provided to students.

4. Unit wise question bank will be provided to students which will be helpful for students.

UNIT –VI: Digital Signal Processors- II

Contents:
TMS320C67X Functional units, Internal memory, External memory, on chip peripherals, Interrupts, Instruction set and addressing modes, Fixed point instructions, Floating point instructions, Conditional operations, Parallel operations, Pipeline operations, Code Composer studio, Application programs in C67X

Unit Objectives: On completion the students will be able to
i. Understand Functional units and memory architecture.
ii. Study instruction set and write simple assembly programs.
iii. Get acquainted with pipelined operations, conditional operations.

Elective Choices for BE (E&TC) 2021-22 SEM-I

All students who will be in BE (E&TC) during AY 2021-22 should fill this form compulsorily
Guidelines before filling the form:
1. For all project group members, same Elective 1 is compulsory
2. Elective 2 can be same or different for project group members
3. While selecting the elective, students should consider their interest in the subject first

*Required

1. TE DIV in AY 2020-21 *

Mark only one oval.

- ◯ TE-I
- ◯ TE-II
- ◯ YD

2. PRN *

_____

3. TE Roll No. (Last 3 Digits only. Ex 135, 253; YD students should write 0 in place of roll no) *

SAVITRIBAI PHULE PUNE UNIVERSITY

(Formerly University of Pune)

EXAMINATION CIRCULAR NO.1 OF. 2020
THIRD YEAR ENGINEERING (2015 COURSE)

Examination of APR/MAY-2020
(Under Faculty of SCIENCE AND TECHNOLOGY : B)ENGINEERING)

1. Common Instructions:

- The examination will be conducted in on-line as well as in off-line mode based on the option given by students. Time slot for both examinations i.e. (on-line and off-line examination) is same.
- All relevant communication related to on-line as well as off-line examinations will be done through the email on registered email address and through sms on registered mobile number. Both these communications details are collected by the examination section through the students' profile filled by these students at the time of filling the examination form. It is suggested not to change email address and mobile number till completion of October, 2020 examination.
- Hall tickets are sent to the concerned affiliated colleges. Students can collect hall tickets from their respective colleges. To avoid inconvenience to students, examination section has provided a special facility to download hall tickets directly from student's login. Those students, who had opted for the off-line OMR based examination, shall carry hall tickets at the examination centre.
- For physically challenged students, for the on-line examination, time will automatically get set to 80 minutes. For the off-line examination, the examination centres are instructed to allot 20 minutes extra to these students. For both on-line and off-line examination permission is granted to take help of writer/assistant during the examination.

2. Instructions to candidates appearing for the on-line examinations:

- Candidates shall appear for the on-line examination from the place of their convenience.
- Candidate can login using their mobile, laptop, PC or I-Pad. Please take care that batteries of these units are properly charged prior to examination and also connected through internet facility.
- In case of any technical difficulty during the examination, software support is provided by the University. On-line examination will get resumed for the remaining duration in case of technical interruptions during the examinations. Answers of the questions attempted by student before the occurrence of the interruption will get saved automatically on University server. A mock test will be provided to all students. Time table of mock test/s will get communicated to students through Student's login.
