**Subject:** Proofs of Metric No. 1.4.1

**Reference:** Metric No. 1.4.1: Institution obtains feedback on the syllabus and its transaction at the institution from the following stakeholders

1) Students 2) Teachers 3) Alumni 4) Employers

Dear sir/Madam,

Feedback on syllabus is as follows:

Year	Students feedback	Teachers feedback	Alumni feedback	Employers feedback
Computer Engineering	18	21	11	AICTE & Stanford University Survey
Information Technology	151	163	25	
Electronics & Telecommunication Engineering	151	117	66	
Mechanical Engineering	155	100	59	
First Year Engineering	107	55	-	
MBA	92	12	32	

Principal

### Details of supporting documents are as follows:

Sr. No.	Details of document available	Page No.
1	<b>Document related to Institution obtaining feedback on the syllabus and its transaction at the institution from Students</b>	
	Computer Engineering	3-20
	Information Technology	21-171
	Electronics & Telecommunication Engineering	172-322
	Mechanical Engineering	323-477
	First Year Engineering	478-584
	MBA	585-676
2	<b>Document related to Institution obtaining feedback on the syllabus and its transaction at the institution from Teachers</b>	
	Computer Engineering	677-697
	Information Technology	698-860
	Electronics & Telecommunication Engineering	861-977
	Mechanical Engineering	978-1077
	First Year Engineering	1078-1132
	MBA	1133-1144
3	<b>Document related to Institution obtaining feedback on the syllabus and its transaction at the institution from Alumni</b>	
	Computer Engineering	1145-1155
	Information Technology	1156-1180
	Electronics & Telecommunication Engineering	1181-1246
	Mechanical Engineering	1247-1305
	First Year Engineering	-
	MBA	1306-1337
4	<b>Document related to Institution obtaining feedback on the syllabus and its transaction at the institution from Employers</b>	
	Computer Engineering	1338-1348
	Information Technology	
	Electronics & Telecommunication Engineering	
	Mechanical Engineering	
	First Year Engineering	
	MBA	

Thanking you,

Curriculum Feedback By Students 2020-2021

Name of Staff / Student	Roll No.	Is this curriculum relevant to the programme ?	Is this curriculum easy to understand ?	Is the curriculum satisfactory in relation to the requirements of employability, entrepreneurship and higher education ?	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and sustainability into the Curriculum ?	Is the curriculum successful in forecasting teamwork and helping students develop analytical and problem-solving abilities ?	Have you obtained valuable learning experience through the curriculum of the course ?	In comparison to other institutes, universities and industry requirement, is the curriculum completed ?

Teacher Feedback Form

Name of the Faculty : Prof. Manoj Pramod Divakar

Pattern : 2012 / 2015 / 2019 ✓

Subject Name : Principles of programming languages.

Course Code : 210255

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?			✓		
2	Is the curriculum easy to understand?			✓		
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?			✓		
4	Is the curriculum satisfactory in relation to the requirements of employability, entrepreneurship and higher education?				✓	
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?				✓	
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?			✓		
7	Have you obtained valuable learning experience through the curriculum of the course?				✓	
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?					✓

Course Code : 3144546

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?					✓
2	Is the curriculum easy to understand?					✓
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?					✓
4	Is the curriculum satisfactory in relation to the requirements of employability, entrepreneurship and higher education?				✓	
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?				✓	
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?				✓	
7	Have you obtained valuable learning experience through the curriculum of the course?					✓
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?				✓

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?					✓
2	Is the curriculum easy to understand?			✓		
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?				✓	
4	Is the curriculum satisfactory in relation to the requirements of employability, entrepreneurship and higher education?					
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?			✓		
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?				✓	
7	Have you obtained valuable learning experience through the curriculum of the course?					✓
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?				✓

Pattern : 2012 / 2015 / 2019

Subject Name : Digital signal processing

Course Code : 304182

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?					✓
2	Is the curriculum easy to understand?					✓
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?					✓
4	Is the curriculum satisfactory in relation to the requirements of employability, entrepreneurship and higher education?				✓	
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?			✓		
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?				✓	
7	Have you obtained valuable learning experience through the curriculum of the course?				✓	
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?				✓

3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?					✓
4	Is the curriculum satisfactory in relation to the requirements of employability , entrepreneurship and higher education?				✓	
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?			✓		
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?				✓	
7	Have you obtained valuable learning experience through the curriculum of the course?				✓	
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?			✓		

Any other suggestions:

For GATE Examination also basics of Network Theory are essential which are limited in subject syllabus.

Teacher Feedback Form

Name of the Faculty : S.R. Jadhav

Pattern : 2012 / 2015 / 2019

Subject Name : ML

Course Code :

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?				✓	
2	Is the curriculum easy to understand?				✓	
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?				✓	
4	Is the curriculum satisfactory in relation to the requirements of employability , entrepreneurship and higher education?				✓	
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?			✓		
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?				✓	
7	Have you obtained valuable learning experience through the curriculum of the course?				✓	
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?				✓

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

Please mark a tick '✓' in the appropriate cell for every particular.

Sr. No.	Description	Poor	Fair	Satisfactory	Very Good	Excellent
1	Is the curriculum relevant to the Programme?				✓	
2	Is the curriculum easy to understand?				✓	
3	Is the contemporary technological advancements incorporated into the curriculum and does it represent current trends and practices in the fields?			✓		
4	Is the curriculum satisfactory in relation to the requirements of employability , entrepreneurship and higher education?			✓		
5	Is the curriculum integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum?			✓		
6	Is the curriculum successful in fostering teamwork and helping students develop analytical and problem-solving abilities?			✓		
7	Have you obtained valuable learning experience through the curriculum of the course?				✓	
8	In comparison to other institutes, universities and Industry requirement, is the curriculum competent?				✓	

Any other suggestions:

Very good implimentation of IC engine details in syllabus

Director (e-Governance), AICTE

Dated: 07.05.2018

Respected Sir/Madam,

The All India Council for Technical Education (AICTE), in collaboration with the research team at Stanford University, is conducting a survey of all faculty who have taught students in the last 4 years in the Computer Science/Information Technology and Electrical/Electronics related departments at selected colleges in India.

The survey is part of an International Research Program to assess and improve the quality of technical education in India and other countries such as China, Korea, Russia, and the United States.

We request you to take time out of your schedule to take the survey. As an expert in your field, your input is extremely valuable and may help shape policies that affect the work and lives of faculty and students across India. Your input is especially valuable because almost all eligible faculty at your college have already completed the survey.

The survey should take 20-25 minutes. You can access the survey using information provided in the body of this email.

We greatly appreciate your kind support and look forward to your participation.

Sincerest Gratitude,

Yours Truly,  
  
Dr. N.H. Siddalingaswamy

Subject: Stanford Research Report for Smt. Kashibai Navale College of Engineering

To: vkimbahune@sinhgad.edu, principal.skncoe@sinhgad.edu, registrar.skncoe@sinhgad.edu

Cc: saurabh.khanna2701@gmail.com

Dear Sir/Ma'am,

Please find attached the report for Smt. Kashibai Navale College of Engineering on the survey conducted by Stanford University in October-November 2017. For confidentiality considerations, this report is being shared only with you. Please feel free to share the report with your college administration and faculty as you deem fit.

We wholeheartedly thank you and your college for your support and participation in this research study. Please let us know if you have any concerns.

Sincerely,

Stanford Research Team

**Survey Report: Shrimati Kashibai Navale College of Engineering**  
**Assessing and Improving the Quality of Engineering Education Program**

**Background and Motivation:**

A major goal of university systems is to produce skilled graduates. Specifically, their goal is to help students gain higher levels of *academic skills* (e.g. maths and physics) and *higher order thinking skills* (e.g. critical thinking and quantitative reasoning skills). Such skills contribute towards productivity and innovation and help students compete in the global knowledge economy.

Despite the importance of improving students' academic and higher order thinking skills during college, there has been no direct and representative evaluation in India of whether students are learning these skills.

In view of this critical gap in knowledge, the MHRD and the AICTE have collaborated with researchers from Stanford University to implement the "Assessing and Improving the Quality of Engineering Education" program. The program is designed to measure and benchmark levels and gains in academic and higher-order thinking skills of students in undergraduate technical programs in India and to understand the various factors that affect skill development. Ultimately, the study will enable colleges to assess the competitiveness of their students and to create a more effective system of technical higher education.

**Objectives:**

The program has two main goals:

- 1) Assess university student skills (levels and gains) and compare student skills across institutions
- 2) Examine which types of factors (institutional, faculty, instructional, curricular, student behavioral) help students develop skills

*Please note this report is confidential and is only being shared with your institute. We would like to take this opportunity to extend our sincerest gratitude to the students, faculty, and administrators at your institute who participated in the study. We are also deeply grateful to the staff who helped us smoothly administer the survey. We greatly appreciate both your enthusiasm and support.*

### **Approach:**

To fulfill these objectives, we surveyed students, faculty, and department heads (HoDs) at engineering institutes in India. To ensure national representativeness, we randomly sampled 50 colleges that offered CS/CSE/IT<sup>1</sup> or EE/EEE/ECE<sup>2</sup> across India. Specifically, we sampled colleges that had four-year undergraduate programs in these departments and randomly chose 1 CS/CSE/IT department and 1 EE/EEE/ECE department from each college.

Altogether, we assessed and surveyed:

- Approximately 18,000 Year 1 and Year 3 students
- Approximately 4,800 of the students' faculty
- 100 department heads (HoDs)

We assessed students on their academic skills (mathematics and physics) and higher-order thinking skills (e.g. critical thinking, quantitative literacy, and relational reasoning).

The assessments we used have the following properties:

- a) Desirable psychometric properties – reliability, validity, and fairness;
- b) Where possible, the ability to measure skill gains over time (vertical-scaling);
- c) Comparability of skill levels and gains across institutions

### **Results:**

Our results describe the 'mean scaled score' for your college on each of the five assessments administered to the students. The 'mean scaled score' for your college is the average score of all surveyed students on a particular assessment, adjusted to a scale of 0 to 100. All scores have been scaled in line with preservation of desirable psychometric properties. As a result of scaling, the mean score for India on a 0-100 scale is 50 for each assessment category. These scaled scores should *not* be confused with percentage scores.

**Figures 6 & 7** represent the mean scaled scores for different assessments for first and third year students at your college and how they compare nationally.

*Figure 6. Mean Scaled Scores for 1<sup>st</sup> Year Students at your College versus the National Average*

*Figure 7. Mean Scaled Scores for 3<sup>rd</sup> Year Students at your College versus the National Average*

**Tables 1 & 2** provide the mean scaled scores for different topics (content areas) in Physics and Mathematics for students at your college alongside the national average.

*Table 1. Mean Scaled Scores by Topic, Physics*

	Topic	Mean scaled score for your college	Mean scaled score for India
Year 1	Circuits	47.93	50.00
	Electric Fields	46.10	50.00
	Electromagnetic Induction	44.98	50.00
	Mechanics	45.15	50.00
	Oscillation and Mechanical Waves	50.19	50.00
	Optics	43.82	50.00
Year 3	Electric Fields	49.67	50.00
	Magnetism and Magnetic Fields	43.67	50.00
	Electromagnetic Induction	52.83	50.00
	Mechanics (including oscillation and waves)	45.68	50.00
	Optics	44.22	50.00
	Relativity and Quantum Physics	44.96	50.00

Table 2. Mean Scaled Scores by Topic, Mathematics

	Topic	Mean scaled score for your college	Mean scaled score for India
Year 1	Single Variable Differentiation	54.86	50.00
	Derivatives and their applications	45.20	50.00
	Equations	45.56	50.00
	Functions and Domains	45.50	50.00
	Inequalities	49.38	50.00
	Mathematical Reasoning and Logic	50.29	50.00
	Trigonometric Functions and Equations	52.05	50.00
Year 3	Single Variable Differentiation	48.92	50.00
	Single Variable Functions	40.19	50.00
	Single Variable Integration	44.55	50.00
	Linear Algebra	40.15	50.00
	Multivariate Differentiation	41.12	50.00
	Mathematical Reasoning and Logic	45.73	50.00
	Differential Equations, Probability, Statistics, and Series	47.39	50.00
	Trigonometric Functions and Equations	46.00	50.00
