Our computer labs are not well maintained. We can't use them because they are not in working condition. Our maths faculty is very bad. His teaching is very bad. I don't understand his concepts. He doesn't explain the formulas and substitutions used in examples. We have tried to understand but we didn't. So I don't like his teaching. We complained about him but we didn't get positive response. Due to his bad teaching students are getting failed in exams. And sometimes our teachers teach wrong concepts. So we are not clear with the concepts.
